

Skin Hygiene

A range of antimicrobial hand cleansers and hand sanitisers to provide a high level of hand hygiene in hygiene sensitive environments, such as the food industry and healthcare, or in environments where a higher level is preferred. Hand hygiene is the most important measure to protect from infection and prevent cross-contamination.

OxyBAC[®] FOAM Wash

Kills 99.999% of many common bacteria

Broad spectrum antimicrobial rich-cream foam hand wash with Accelerated Hydrogen Peroxide[®] (AHP)

- Perfume-free, dye-free and preservative-free foam hand wash
- Contains AHP[®] a unique patented broad spectrum biocide with highly effective bactericidal (EN1499) and fungicidal (EN1650) activity; plus effective against many viruses
- Does not induce antimicrobial resistance and hydrogen peroxide breaks down into oxygen and water with no environmental contamination
- Specifically formulated for use in food handling environments where high levels of hand hygiene are required; independently tested to prove non-tainting to food
- Hypoallergenic formula is safer for skin and safer for the environment compared with all other antibacterial soaps

Where to use:

Any food manufacturing & processing, food service & catering environment where food is being handled

Deb Healthcare Programme

Your first choice in hand hygiene

Maintaining good skin condition is vital to protecting the health of both staff and patients. The Cutan[®] hand hygiene product range encourages best practice to achieve safe and acceptable levels of care through the use of a 3-Step Hand Hygiene Procedure.

3-Step Hand Hygiene Procedure:

Step 1: Cleansing

A fundamental step in hand hygiene best practice. Apart from removing any visible soiling from hands, the physical action of a good hand washing technique will remove high levels of bacteria and viruses also present on the skin.

Step 2: Sanitising

Hand sanitising is very useful in reducing bacterial counts on visibly clean hands when access to soap and running water is inconvenient. In healthcare environments alcohol is the preferred active biocide for skin sanitising without the need for rinsing.

Step 3: Restore

This is the most important step in maintaining good skin condition. As a consequence of frequent hand washing it is vital to regularly replenish the natural oils lost from the skin with the use of reconditioning cream.

“Deb Group innovations include a number of ‘world first’ patented skin care formulations and dispensing systems”

Step 1: Cleanse

All Cutan® soaps are very carefully formulated to be extremely mild, thereby encouraging their frequent use

Cutan® Gentle Wash

Exceptionally gentle washing lotion

An ultra high emollient soap, designed for extremely frequent use in clinical areas. Its creamy formula spreads easily and lathers rapidly for high user acceptance to encourage frequent hand washing.

Stock Code	MRB409	MRB377	MRB376
Pack Size	150ml Flip-Top	750ml Cartridge	1 Litre Cartridge

Benefits:

- Gently cleanses to remove transient micro-organisms
- pH neutral to lessen the impact on skin, even with very frequent use
- Contains humectants to help maintain skin condition
- Mild surfactant base designed to minimise skin drying without compromising cleaning ability

“Good skin condition increases hand hygiene compliance and reduces the risk of germs being spread”

Cutan® Foaming Soap

Mild foaming soap for frequent use

Deb's latest patented* pump technology delivers foam directly to the skin. Foam soap is faster to wash and rinse with and less soap is required to clean the skin compared to conventional liquid soaps, saving money and reducing the potential of skin irritation. As a result, hand washing compliance can be improved.

Stock Code	MRB375
Pack Size	1 Litre Cartridge

Benefits:

- Rich, creamy foam encourages frequent use
- High economy in use with over 50% more hand washes from each cartridge compared to normal lotion soaps
- Balanced pH to lessen the impact on skin
- Contains Glycerine, Aloe Vera, Pro-vitamin B5 and Wheatgerm extract to help maintain skin condition

Step 1: Cleanse

All Cutan® soaps are very carefully formulated to be extremely mild, thereby encouraging their frequent use

Cutan® Gentle Wash Hypoallergenic
Fragrance free & emollient rich washing lotion

Formulated extremely carefully and only contains ingredients known for their excellent skin compatibility. Frequent use reduces the risk of stress to normal skin compared to regular hand washing preparations.

Stock Code	MRB374
Pack Size	1 Litre Cartridge

Benefits:

- Contains emollient and humectant to help hydrate the skin, leaving it feeling smooth and conditioned
- Skin friendly pH to minimise the possibility of irritation to normal or even already stressed skin
- Hypoallergenic formula independently certified by a toxicologist
- Fragrance free to further minimise the risk of possible skin sensitisation

“Deb pioneered the introduction of sealed cartridge dispensing systems into UK hospitals”

Cutan® Cleanse InstantFOAM Gentle Wash

Fragrance free, dye-free foam hand wash

Specially developed to meet the needs of professionals who want to use skin care products that have the least impact on their skin condition, even when used frequently. Soap is delivered onto the hand as a rich creamy foam via Deb's unique foam technology.*

Stock Code	MRB378
Pack Size	1 Litre Cartridge

Benefits:

- Super mild formula, skin friendly pH
- Free from perfume, dye and preservative compounds
- Can be used in areas where food is handled
- Extremely economical to use, up to 1,429 hand washes from a single cartridge. Over 50% more than normal lotion soaps

Step 2: Sanitise

Highly effective, perfume-free and dye-free alcohol-based foam hand sanitiser with moisturiser

Cutan® Foam Hand Sanitiser

For use without water to instantly sanitise hands

A unique, worldwide patented*, high efficacy foaming alcohol skin sanitiser, that works instantly to kill micro-organisms present on the skin.

*Worldwide Patents Granted and Pending.

Stock Code	MRB250	MRB350	MRB361
Pack Size	50ml Personal Issue	400ml Pump-Top	1 Litre Cartridge

Cutan® Foam Hand Sanitiser
Kills 99.999% of many common germs in just 15 seconds to provide a higher level of hand hygiene

Benefits:

- Leaves skin feeling soft and smooth for an excellent after-feel
- Free from thickening agents; will NOT block dispensing equipment
- Contains conditioner to help prevent dryness
- Foam spreads easily across hands for maximum efficiency: no spills, splashes or waste
- Broad spectrum of germicidal activity supported by extensive independent testing
- Works instantly and dries quickly with no need to rinse or dry. After use, gloves can be applied easily
- Available in a range of pack sizes from 1 litre cartridges to portable pump packs

Step 3: Restore

The mild, neutral pH formula of Cutan® moisturiser is gentle on the skin leading to high levels of acceptance

Cutan® Moisturising Cream

Mild, fragrance free reconditioning cream

Use of a skin conditioning cream is one of the most important aspects of maintaining good skin condition, yet is one of the most frequently overlooked steps.

Stock Code	MRB410	MRB379
Pack Size	150ml Flip-Top	1 Litre Cartridge

Within any healthcare facility, regular hand washing is vital. But as well as removing physical contaminants, frequent hand washing breaks down the natural secretions that keep our hands in good condition.

Benefits:

- Regular use helps maintain skin condition
- Ointment based blend of mild cosmetic ingredients leaves the skin feeling soft & conditioned
- Rubs in quickly and easily to leave a non-greasy after-feel
- Highly economical - only a small amount required for effective skin conditioning
- Mild, neutral pH formula is gentle on the skin leading to high levels of acceptance
- Supplied with hygienic ultra-sonically sealed 1 litre cartridges
- Toxicologically assessed and certified Hypoallergenic
- Fragrance free

Did you know?
Cutan® Moisturising Cream has been developed to work best with the other hand hygiene products in the Cutan® range. Used regularly, it can help to keep the skin moist and supple whilst normal skin functions replace the natural moisturisers removed by hand washing

Deb Skin Protection Centres What's available?

For use with Deb products to create a tailored skin care system. Deb Skin Safety Centres are available for use in heavy duty and general industrial areas to provide skin protection and encourage hand hygiene.

Benefits

- Convenient – everything needed for clean, healthy skin in one location
- Instructional – encourages compliance with a full skin safety regime
- Easy Maintenance – wipe clean surface
- Robust – durable, lightweight material ideal for busy wash area environments

P033-1XUNIT

Concentrates

Controls Costs and Eliminates Waste

A single 1L bottle of Vmix super concentrate achieves significant cost-in-use savings over traditional 5Litres. Vmix 1L bottles weigh less, are easier to store, easier to handle and more environmentally friendly to transport. A simple 10ml squeeze and fill chamber eliminates product dosage and ensures accurate dosing first time, every time. There's no chance of pouring money away!

10 unlabelled empty trigger bottles:

1 x 1L bottle = 100 trigger sprays
= 50 buckets

P100-1XPACK

Labels: P101-1XPACK

stating V100, V200, V300, V500, V600

A 1litre Vmix super concentrate will fill upto 100 tigger spray bottles. The 'Easy Dose' bottle design ensures accurate dosing every time and reduces over use.
